MASTERCRAFT PRECISION INJECTION MOLDING & TOOLING CERTIFIED BY UNDERWRITERS LABORATORIES, INC : **ISO 9001:2008**

Phoenix, AZ., July 9, 2009 – Mastercraft Companies a leading speciality manufacturer for precision injection molding and tooling, today announced that Underwriters Laboratory has certified Mastercraft ISO 9001-2008. UL issues the certification to Mastercraft after assessing the Firm's quality system and finding it in total compliance after a three day audit.

Mastercraft Companies first received certification on April 2, 1996 as a manufacturer of custom injection molded plastic parts, assemblies and mold making. This certification also included the design and manufacture of injection and die cast molds. For the past 13 years Mastercraft has been fully certified by UL, meeting or exceeding all requirements as a full service specialty manufacturer.

Mastercraft was founded in 1968 in Phoenix, AZ. by its founder, owner & CEO: Mr. Arle Rawlings. The company has continued to be a leader in the Plastics Industry in the USA as well as partnerships in Asia. Mastercraft serves the Medical, Electronic, Aerospace, Military, Consumer and Industrial Markets. The firm supplies both fortune 500 companies as well as private OEM's.
